SUBJECT.

Representation of Sri J. P. Nandi, Inspector of Mines re-maximum pay is Rs 600/- in grade 450-50/2-600/-

No. 1606/CB. Dt. 23.8.49

To

The Chief Inspector of Mines & Explosives

K. Gr. [illegible] Gorgaon

Representation of Sri. F.P. David, Addl. Inspector of Mines for the maximum pay of Rs 600/ p.m.

Letter no. 2593 dated 11.5.49 from the Chief Inspector of Mines and Explosives in Mysore, conveying forwarding an application of Sri. David and recommending that Sri. David may be given the maximum pay of Rs 600/ p.m. in the grade of Rs 450-50/2-600, in consideration of the valuable services he has rendered throughout his long service.

P.U.D

Submitted:

1. C.B. file no. 250/48-1 relating to the appointment of Sri. F.P. David, as Addl Inspector of Mines on Rs 50/- p.m. in the grade of Rs 400-50/2-600 is placed below for kind perusal.

2. Kind reference is invited to the final note dated 16.11.48 wherein the Council has resolved on consideration of all aspects of the case that Sri. F.P. David may be allowed to draw Rs 500/ p.m. from 1st Nov 48 in the grade of Rs 400-50/2-600

A.

3. No fresh points seem to have been made for reconsideration of the above order.

2

Representation of Sri. J. P. David Addl Inspector of Mines for the maximum pay of Rs 600/p.m.

5770 C-B.

In view the circumstances, the recommendation of the Chief Inspector of Mines and Explosives to grant the maximum pay of Rs 600/p.m. in the grade of Rs 450-50/2-600 is for orders.

10/8/49. 5) This requires financial concurrence and would be Council matter.

6 The representation of Sri 10.8.49. J. P. David, Addl. Inspector of Mines, is for perusal. The previous recommendation of the chief Inspector of Mines to fix the pay of Sri David at Rs 600/- in the grade of Rs 450 - 50/2 - 600 as Addl. Inspector was considered in detail and the pay of Sri David was fixed at Rs 500/- in the grade from 1.11.48. The only new point now put forward is that the grant of extension

extension of service by one year from 4-10-49 to Sri K. Duraiswamier, Chief Inspector of Mines, has put off the chances of his appointment as the Head of the Deptt. Sri David will attain the age of superannuation on 9-5-1952, and he has hardly a service of 2 years and 9 months before him to ~~55 years~~ complete 55 years of age. Sri V. Narayana Rao, who is above Sri David, has been permitted to retire from service from 25-11-49, the date of his superannuation and consequently Sri David will be the next officer in the run for being appointed as Chief Inspector of Mines on a pay of Rs 800-50-1000. If appointed he is likely to hold it for a period of ~~possibly not more than one year~~ about one year and six months.

7) In the above circumstances

5770
6B

Representation of Sri J.P. David, Addl. Inspector of Mines

the recommendation of the Chief Inspector of Mines to give a pay of Rs 600/- in the grade of Rs 450-50/2-600, to Sri J.P. David is for consideration and orders.

2) Fin. concurrence is ~~not~~ necessary as it is also a Council matter.

Oorgaum, 11-iv

From

Sri J.P. David, B.Sc.,
Additional Inspector of Mines,
Oorgaum.

To

Janab Mir Safdar Hussain, B.A.,
General Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

Through

The Chief Inspector of Mines &
Explosives in Mysore,
Oorgaum.

Sir,

I have the honour to bring to your kind notice the following facts for favourable consideration.

I entered service as a Probationer in the Department of Geology in Mysore on the 8th September 1920 and after successfully completing two years' probation, I was confirmed from 8th September 1922 in the grade of Sub-Assistant Geologist, Rs.125-25/2-250 per mensem and ordered to work in the Mysore Iron Works as Special Assistant with a monthly allowance of Rs.50/-. I was transferred to the Department of Mines and Explosives in the month of November 1930 where I have since been working . Regarding my work in different capacities, I am herewith enclosing a copy of my representation submitted to the benign Government on the 7th January 1947 for ready reference.

It will be seen from the above that I have rendered about 29 years of strenuous and well recognised service. I have been eagerly and anxiously waiting all these years to become the Head of the Department on the retirement of Sri K. Duraiswamier, Chief Inspector of Mines and Explosives in October 1949. An extension of service has been granted to Sri Duraiswamier for a year.

I have barely three more years' service and this extension will affect the benefit of earning my full pension as I will have only two years to serve as Head of the Department, if all goes well. Besides,

by

by this arrangement I stand to lose about Rs.4000/-, that is, loss of pay 300 x 12 + house rent, Rs.400/- for one year (The Head of the Department has free quarters).

This application I am submitting to the benign Government with the hope of enhancement of my present pay. From 1945, I have been representing that I should be made an Inspector of Mines. It is only in November 1948, I was made an Additional Inspector of Mines with a pay of Rs.500/- in the grade of Rs.450-50/2-600 per mensem. I pray that I may be kindly granted the maximum in this grade, that is, Rs.600/- from 1st November 1948. The Chief Inspector of Mines and Explosives in one of his notes, No.2468 dated the 18th June 1947 has recommended that "An additional post of an Inspector of Mines may be created and "Mr. David appointed to the post and given the maximum pay of that "appointment, that is, Rs.600/- on his reversion to this Department as "he has been drawing a salary of Rs.610/- (400 + 160 + 50) at Jog for a "considerable time. I consider that he deserves this promotion in view "of his long and useful service in the several departments of Government."

Need I mention here, Sir, that this encouragement will be some compensation for the sad disappointment I am having.

Yours faithfully,

11.5.49.

Additional Inspector of Mines.

11-5-49

Copy of Application dated 7th January 1947 from Mr. J.P. David, to the General Secretary to Government of Mysore.

==========

I have the honour to submit herewith a brief history of my service for your kind information with a request that my claim for the post of an Inspector of Mines may kindly and favourably be - considered.

I was the first to be selected from among the applicants for Probationership in the Department of Geology and Mines in Mysore and was appointed as such from 8th September 1920 (No.G.5303-7/Geol. 60-19-4 dated the 6th September 1920).

After getting trained for Field Survey, Chemical analysis and workshop practice, Government ordered me for six months' training in the Mysore Iron Mines from 8th November 1921 - Vide G.O.No. I.C.3023-5/I.M.7-21-27 dated the 22nd November 1921 and at the request of Dr. Smeeth, Director of Mines and Geology, the training was continued till the 8th September 1922, that is, end of the two years of Probationer-ship.

The Services of all the probationers except those of the Mines' Probationer, Mr. K. Duraiswamier, were dispensed with on account of retrenchment but mine were ordered by Government to be retained in the Iron Mines from 8th September 1922, vide para 4 of G.O. No.I.C. 2776-80/Geol.119-22-1 dated 27th October 1922 which reads as follows:-

> "Government are pleased to direct that the
> "services of Mr. David be retained in
> "connection with Mysore Iron Mines and his
> "salary be debited to the Iron Works Budget.
> "His future position will be decided later on".

In this connection the following is the extract from the letter No.425 dated (Camp) 20th October 1922 of the Director of Mines and Geology:-

> "Under the circumstances, I presume that you
> "will elect to stay with us until something
> "further is decided. I hope you will do so".

As

As there was already an Assistant Superintendent of Mysore Iron Mines, I was designated Special Assistant with a pay of a Sub Assistant Geologist, viz. Rs.125-25/2-250 plus a duty allowance of Rs.50/- a month (G.O.No.I.C.5147-9/I.W.50-22-9 dated 17th February 1923) and I began drawing this salary from 8.9.1922 (G.O.No.I.C. 3092-3/I.W.39-23-2 dated 6th November 1923). In September 1928, I was given a consolidated salary of Rs.250/- a month which I continued to draw till the 10th of November 1930 when I was transferred to the Department of Mines and Explosives, Kolar Gold Field, on Rs.225/- a month as per G.O. No.D.4455-7/Geol.105-19-8 dated 28th October 1930. I would like to mention here that due to my work of Mining and Prospecting for the Mysore Iron Works in the thick jungles my family and I fell victims to severe malaria and I was prepared to accept any salary if I got a transfer. Had I elected to stay on at the Mysore Iron Works, I would.today be getting a pay in the grade of Rs.450-50/ 2-750 at least as some of my juniors in the Mysore Iron Works are now drawing. From 10-11-1932 I got the first increment of Rs.25/- i.e. a pay of Rs.250/- a month. I drew this pay, the maximum in the grade of Rs.125-25/2-250, till May 1937 when my services were loaned to the Jaipur Durbar (Rajputana) as Assistant Mining Engineer on a salary of Rs.400/- plus a house allowance of Rs.40/- plus a conveyance allowance of Rs.50/-, in all Rs.490/- a month. I reverted to the Department in May 1940 after three years' service in Jaipur. On reversion, I received a pay of Rs.280/- a month and the benign Government were pleased to sanction me an advance increment of Rs.40/- in their Order No.A.F.161-2/Geol.82-39-6 dated 9th July 1940 which reads as follows:-

> "that Mr. J.P. David, Assistant Inspector of Mines
> " who is drawing a pay of Rs.280/- in the grade of
> "Rs.200-40/2-400 be granted an advance increment
> "of Rs.40/- with effect from 13-5-1940 the date on
> "which he joined the Department after his return
> "from Jaipur without prejudice to the increment he
> "would get in the usual course in September 1940".

When I reverted to the Department from Jaipur, the Inspectorate consisted of the following officers:-

1 Chief Inspector
1 Inspector
1 Assistant Inspector
1 Junior Inspector
2 Probationers.

In his recommendation letter to Government No.1145 dated 11th December 1942 for re-organising the Department, the Chief Inspector of Mines and Explosives has kindly said as follows:-

> "In this connection, I wish to bring to the notice "of Government that Mr. David has put in a service "of over 22 years since his appointment as a Pro- "bationer in the Geological Department and has been "drawing a salary of Rs.400/- per mensem from 10th "December 1941 as Assistant Inspector of Mines. He "did excellent work in the Mysore Iron Works for 9 "years before he was transferred to this Department "where his work continued to be as efficient as in "the Iron Works. During his deputation to Jaipur "for three years his work was highly spoken of by "the Officers of that State. His work as Secretary "to the Chairman for K.G.F. Labour Enquiry, Raja- "mantrapravina Diwan Bahadur K. Matthan was greatly "appreciated by him. In view of his continued good "work, I recommend that he may be appointed as one "of the Inspectors of Mines on Rs.450-50/2-600 in "the proposed revised scheme".

In this connection, I would like to bring to your kind notice the dates of joining service of the Senior Officers of the Department:-

1.	Mr. K. Duraiswamier	...	21. 9. 1920
2.	" V. Narayana Rau	...	26. 3. 1919
3.	" J.P. David	...	8. 9. 1920
4.	" R.S. Batni	...	17. 11. 1930.

A kind reference to the History of Gazetted Service will reveal the details of service. An additional post of Assistant Inspector of Mines was created and Mr. Batni, my junior by about 10 years, was promoted to this post. I do not grudge nor am I jealous. Mr. Batni richly deserves the promotion. I am only praying for an equitable treatment. It stands to reason that, having as much service, if not more, as the two officers above me, I should be given the same treatment by promotion to the ~~Assistant~~ post of an Inspector of Mines as my junior was promoted to the Assistant Inspector's grade.

From October 1943, I have been working in Jog Power Scheme in

connection

connection with the excavation of the Generating Station Site, - Permanent Trolley Line, Penstock pipe route, Materials Track and Power Channel, advice regarding the difficult and treacherous Geological formations of the area and protective works necessary for the safety of the different works, location of granite deposits for good stones for the construction of the Dam at Hirebhasgar, investigation of the lime kankar deposits of Birur, Ajjampur and Ramagiri for surki mortar for the Dam, recruitment of skilled labour, mineral survey and quartz prospecting round about Jog Power Scheme area, etc., etc. From April 1946, I have been working as Special Duty Officer in the Mysore Iron & Steel Works (in addition to my work in Jog Power Scheme) in - connection with the detailed prospecting of Kemmangandi Iron Ores and Bhadigund Limestones for the new Electric Pig Iron Furnaces and 200-ton Cement Plant to be installed at Bhadravati.

In his recent recommendation letter to Government No.750 dated 10th November 1944 - Recruitment of Probationers to the Mines and - Explosives Department - the Chief Inspector has kindly written as - follows:-

> "Mr. J.P. David, Asst. Inspector of Mines
> "in grade 200-40/2-400 who reached the
> "maximum of the grade on 10-12-1941 and
> "who has been drawing this pay since then
> "is now deputed to Jog Power Scheme where,
> "in addition to his pay, he is given a
> "consolidated allowance of Rs.200/- per
> "mensem. His deputation extends till the
> "end of June 1945. I propose that Mr.
> "David be appointed to the Additional Post
> "of Inspector of Mines on Rs.450-50/2-600
> "when he reverts to the Department."

My deputation to Jog Power Scheme will terminate at the end of June 1947. As the promotion to the post of the Inspector of Mines has nothing to do with my reversion to the Department, I pray that I may kindly be granted the promotion with a pay of Rs.600/- that is, the maximum in the grade of Rs.400-50/2-600. A close study of my service will show that I have all along been working in different works and capacities and have done my work to the best of my abilities, earning the approbation and encomium of the various officers under whom I had the good opportunity to serve.

Thanking you in anticipation.

1.	Mr.	K. Duraiswamier	...	21. 9. 1920
2.	"	V. Narayana Rau	...	28. 3. 1919
3.	"	J.P. David	...	8. 9. 1920
4.	"	R.S. Batni	...	17. 11. 1930.

A kind reference to the History of Gazetted Service will reveal the details of service. An additional post of Assistant Inspector of Mines was created and Mr. Batni, my junior by about 10 years, was promoted to this post. I do not grudge nor am I jealous. Mr. Batni richly deserves the promotion. I am only praying for an equitable treatment. It stands to reason that, having as much service, if not more, as the two officers above me, I should be given the same treatment by promotion to the ~~Assistant~~ post of an Inspector of Mines as my junior was promoted to the Assistant Inspector's grade.

From October 1943, I have been working in Jog Power Scheme in

connection

connection with the excavation of the Generating Station Site, Permanent Trolley Line, Penstock pipe route, Materials Track and Power Channel, advice regarding the difficult and treacherous Geological formations of the area and protective works necessary for the safety of the different works, location of granite deposits for good stones for the Dam, recruitment [illegible] prospecting [illegible] Jog Power Scheme area, etc., etc. From April 1946, I have been working as Special Duty Officer in the Mysore Iron & Steel Works (in addition to my work in Jog Power Scheme) in connection with the detailed prospecting of Kemmangandi Iron Ores and Bhadigund Limestones for the new Electric Pig Iron Furnaces and 200-ton Cement Plant to be installed at Bhadravati.

In his recent recommendation letter to Government No.750 dated 10th November 1944 - Recruitment of Probationers to the Mines and Explosives Department - the Chief Inspector has kindly written as follows:-

> "Mr. J.P. David, Asst. Inspector of Mines
> "in grade 200-40/2-400 who reached the
> "maximum of the grade on 10-12-1941 and
> "who has been drawing this pay since then
> "is now deputed to Jog Power Scheme where,
> "in addition to his pay, he is given a
> "consolidated allowance of Rs.200/- per
> "mensem. His deputation extends till the
> "end of June 1945. I propose that Mr.
> "David be appointed to the Additional Post
> "of Inspector of Mines on Rs.450-50/2-600
> "when he reverts to the Department."

My deputation to Jog Power Scheme will terminate at the end of June 1947. As the promotion to the post of the Inspector of Mines has nothing to do with my reversion to the Department, I pray that I may kindly be granted the promotion with a pay of Rs.600/- that is, the maximum in the grade of Rs.400-50/2-600. A close study of my service will show that I have all along been working in different works and capacities and have done my work to the best of my abilities, earning the approbation and encomium of the various officers under whom I had the good opportunity to serve.

Thanking you in anticipation.
